37th Annual Meeting
Florida Society of Dermatologic Surgeons
September 28–30, 2018
The Diplomat Beach Resort
Hollywood, Florida
The mission of the Florida Society of Dermatologic Surgeons is to maintain the highest standards of the dermatological surgery practice and to provide an educational opportunity where we can share our experiences, exchange ideas and expand our knowledge in order to strengthen our expertise. It is a great honor for me to be the Program Co-Chairman for such a distinguished, respectable society and I thank you for your continuous support.

This year an exciting meeting awaits us. It gives me great pleasure to invite you to the 37th Annual Meeting of the Florida Society of Dermatologic Surgeons, “Advances in Dermatologic Surgery.” Our Program Chairmen, Keyvan Nouri, MD, and Terry Cronin, Jr, MD, have once again assembled an outstanding faculty of experts. This group of national, and distinguished Florida colleagues will share their knowledge.

We have an array of programs for the whole office. A Mohs histotech training and Practice Administrators Program will be offered on Friday and Saturday. Beck Consulting and Associates will be offering a two-day, hands-on Mohs histotech training course. In this comprehensive course, beginners to advanced technicians can hone their skills in embedding, staining and cutting. The Practice Administrators Program will feature dermatology billing presented by the AAD Practice Management staff. This is a great training opportunity for your entire staff.

No matter your interest in dermatologic surgery, there is something for you in our program. There will be a variety of presentations on excisions, Mohs surgery, reconstruction, pathology, office efficiency, fillers and lasers. Virtually no aspect of dermatologic surgery will go unaddressed.

Our Annual Business Meeting will be held Saturday after lunch. We will hear a report from the FSDDS updating us on our sister society’s advocacy activities.

Plan to attend the Welcome Reception in the exhibit hall on Friday Evening. This is great opportunity to show our appreciation for their support. Saturday night’s event “Starry Starry Night” will be a fun evening with dinner and entertainment.

This meeting promises to be a highly informative, exciting and collegial event. See you in Hollywood!

Evan Schlam, President
Florida Society of Dermatologic Surgeons

This year an exciting meeting awaits us. It gives me great pleasure to invite you to the 37th Annual Meeting of the Florida Society of Dermatologic Surgeons, “Advances in Dermatologic Surgery.” Once again our dedicated team was able to organize an outstanding educational session in a warm and inviting setting. We have congregated an exceptional team of colleagues to enlighten us with their knowledge and expertise in dermatological advances. I encourage you to participate in this year’s meeting as it has been previously recognized worldwide as one of the broadest and most informative sessions in dermatologic surgery.

I extend my most sincere gratitude to the program committee which I had the opportunity to work with while organizing this year’s meeting: Dr. Evan Schlam, FSDS President and Dr. Terrence Cronin, Jr., FSDS Co-Program Chairman for their contributions and support to make this program an exceptional one; Paula Baumgardner, FSDS Executive Director; and Judy Alfano for their excellent work and assistance with the program coordination. I look forward to working with the Program Committee in forming our future annual meeting, as they are great learning experiences for all of us.

Our most sincere effort was place into organizing this activity and we hope all will enjoy.

Best Regards,

Keyvan Nouri, MD
Program Co-Chairman
Course Description

Advances in Dermatologic Surgery™ is an educational program designed to give dermatologic surgeons the opportunity to gain knowledge on the latest and most advance techniques of dermatologic surgery. The course includes didactic lectures presented by national and international experts, live demonstrations plus time for informal sharing of information. Topics include the diagnosis and treatment of varies skin cancers, wound closures, reconstructive surgery, advances in injectables and fillers, Mohs surgery, laser treatments for skin conditions, dermatopathology and other related topics.

Special sessions for Practice Administrators and Mohs techs. A Practice Administrators Program and a Mohs Tech workshop will be held on Friday, September 28 and Saturday, September 29.

Who Should Attend?
The target audience is Dermatologic Surgeons, Dermatology Residents, Otolaryngologists, Plastic Surgeons and Ophthalmologists who are interested in dermatologic surgery. Practice Administrators and Mohs techs should plan to attend programs dedicated to their specialty.
